

## Long Range Strategic Plan Action Plans 2009-10

Greetings,

Thanks for your interest in the work of the Bozeman School District to provide outstanding educational opportunities for our students. The Long Range Strategic Plan Action Plans 2009-10 provide an in depth look at the work plans for each school and department over the next 3-5 years. The intent is to provide our community with the ability to look specifically at the plans that were established by teams of educators in each school or department. The best way to review the information is to click on the [Action Plan Matrix 2009-10](#). This matrix has active links to each of the Action Plans prepared by the school or department team on the related Strategic Objectives. Just click on an [X](#) and you will go directly to that Plan. In total, there are 164 Action Plans describing the work of our district. Individually, they represent how each member of our team is doing their part to provide world class opportunities for our students. I hope you will take a few minutes to browse areas of interest to you.

Respectfully,

A handwritten signature in blue ink that reads "Kirk".
